**Subject:** A PMN issue for next week

Kelly/David,  
Todd will be out next week, and he indicated you are the NC points while he is out; so wanted to make you aware that there is press interest in P-08-508, as it is being detected in in water and reporter is asking about what we know/did know about toxicity. So, Maria will be asking for someone to be looking back at whatever review RAD did then, and you will likely need a HH Tox person to look again.  
Also, I think we asked for a bunch of testing in Consent Order...so, will have to figure out what we got, if we reviewed it and what it all means.

Tala R. Henry, Ph.D.
